

Sorting, Filtering & Joins in SQL

- Zayed

Agenda

1. Recap of Previous Session
2. Data Types in SQL
3. Sorting Data with ORDER BY
4. Pattern matching with LIKE
5. Aggregating Data
6. Join Operations

Recap of Previous Session

WHAT THE HECK IS A DATABASE AND DATABASE
MANAGEMENT SYSTEM

POSTGRESQL? MYSQL? WHICH SQL?

Data Types in SQL

WHAT TYPES OF DATA CAN WE DEAL WITH? 🤔

Common Data Types in SQL

- INT
- FLOAT
- VARCHAR
- TEXT
- DATE
- BOOLEAN

Sorting & Limiting Data in SQL

ORDER! ORDER! ORDER!
GET YOUR DATA IN LINE!

Sorting & Limiting Data in SQL

- ORDER BY – Sort Query Result
- ASC / DESC – Sorting Order
- LIMIT – Limits number of rows to get

Pattern Matching with LIKE in SQL

WHAT'S THERE NOT TO LIKE? IT'S JUST PATTERN
MATCHING, NOTHING ELSE 😊 ...

Pattern Matching with LIKE in SQL

- LIKE - Enables us to match (pattern 😊)
- % - Any number of character (sequence)
- _ - Exactly one character

Aggregating Data in SQL

AGGREGATE YOUR WAY TO INSIGHT...

Aggregating Data in SQL

- Aggregate Functions – Revise
 - *COUNT*
 - *AVG*
 - *SUM*
 - *MIN / MAX*
- Group By – Groups rows with the Same Values
- Having – Filter Groups

Joining Tables in SQL

THE PERFECT MATCH! JOIN TABLES AND MAKE YOUR
WAY TO A PERFECT RESULT

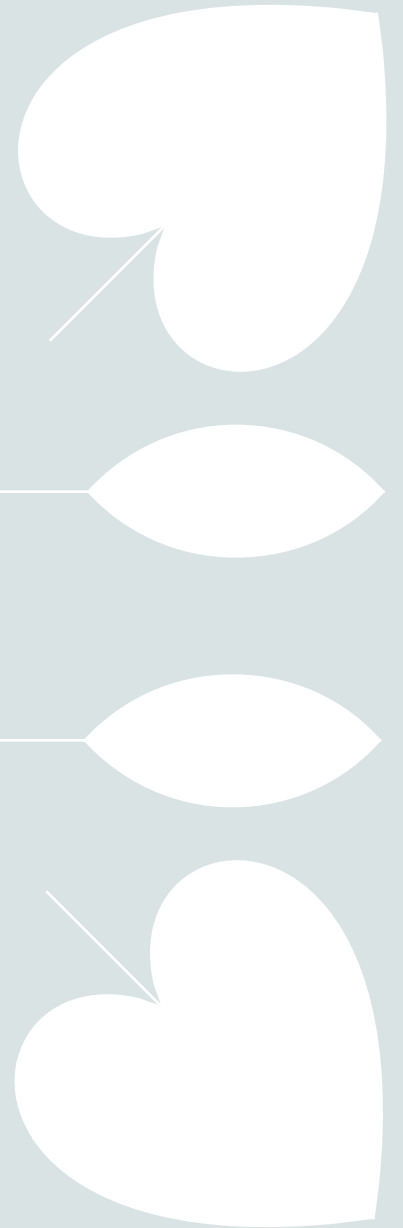

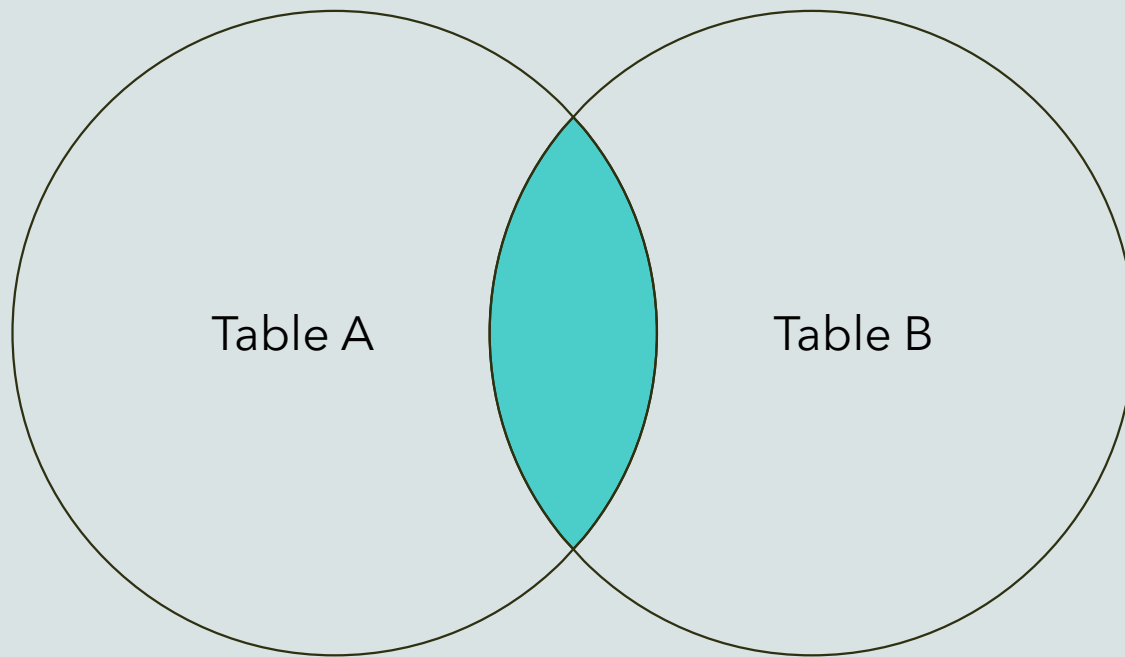

Joining Tables in SQL

- INNER JOIN - Common in Both
- LEFT JOIN - All in left + Matched with Right
- RIGHT JOIN - All in Right + Matched with Left
- FULL JOIN - Everything...

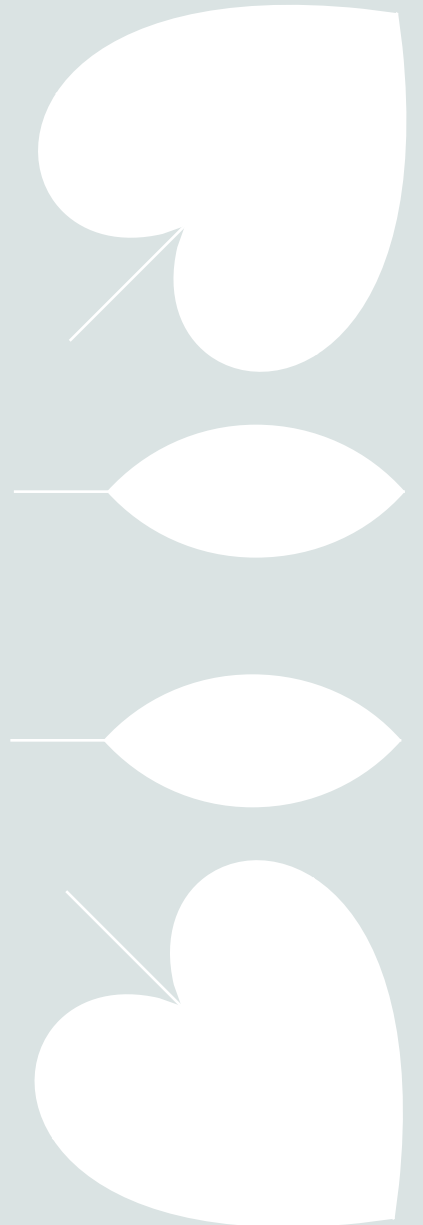

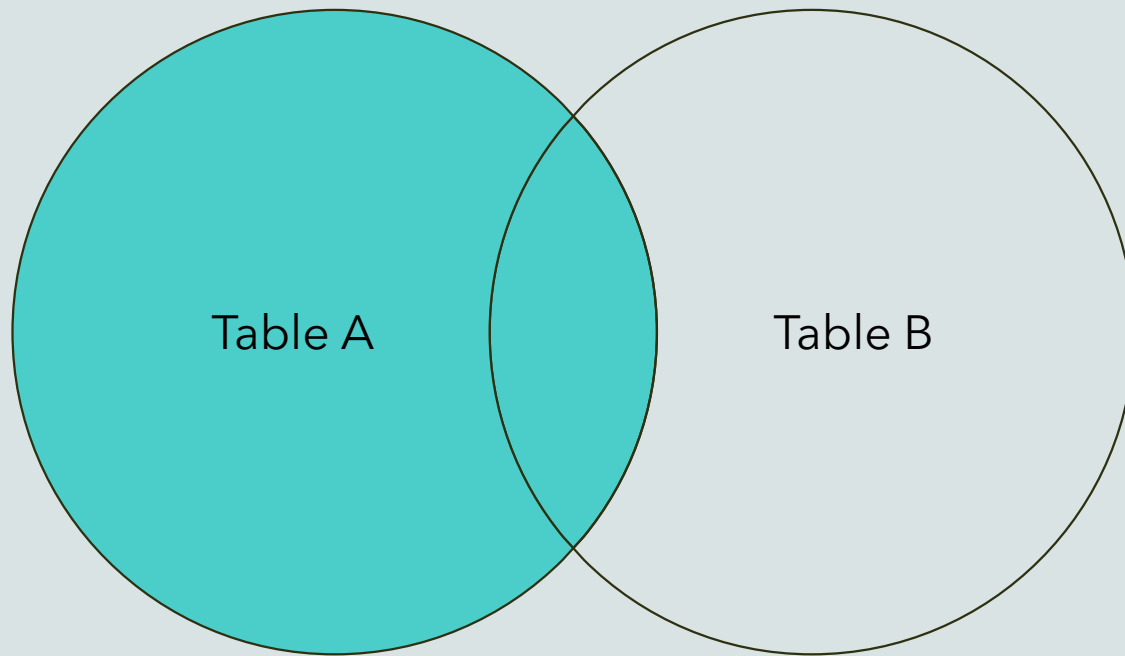

Joining Tables in SQL

INNER JOIN - Only the Common Matches

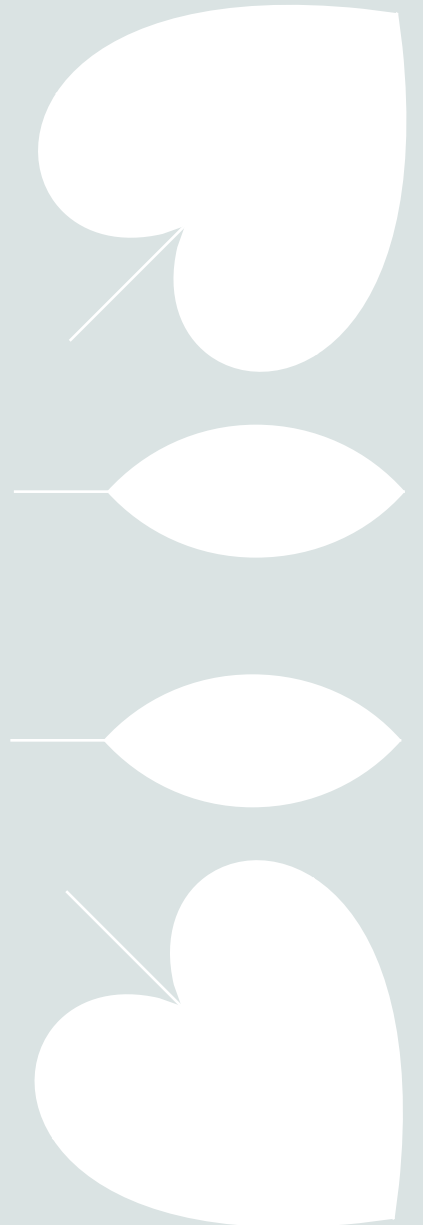

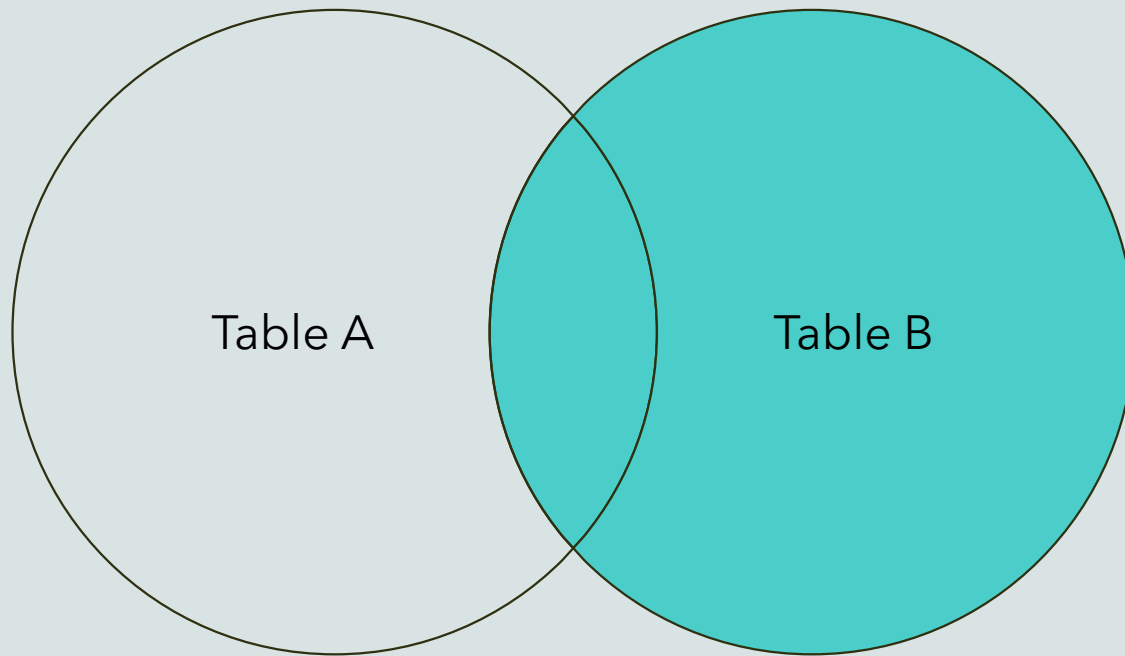

Joining Tables in SQL

LEFT JOIN - All from Left + Matching from Right

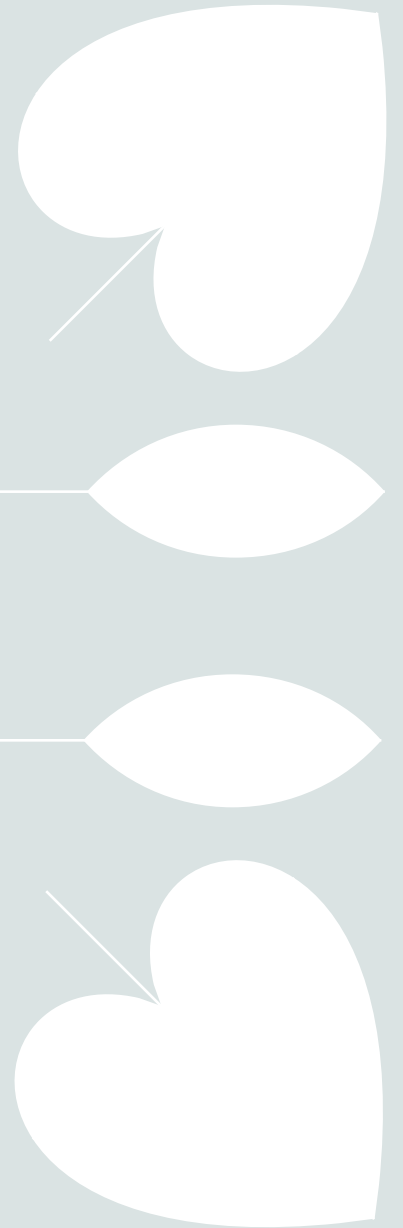

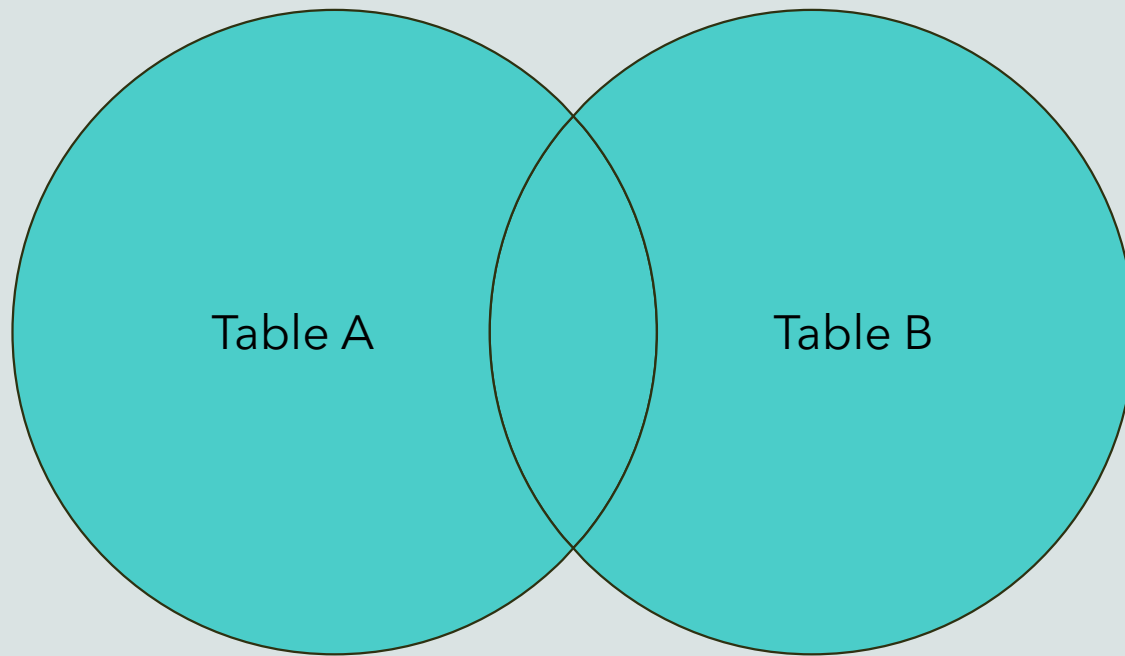

Joining Tables in SQL

RIGHT JOIN - All from Right + Matching from Left

Joining Tables in SQL

FULL JOIN - All from Left + All from Right

Thank you
